Kings Daughters X-Ray Fund Nets \$718.50

The amount turned in to date for the Kings Daughters Hospital X-Ray Fund as the proceeds from the benefit given last Thursday night was \$718.50.

This amount paid to the bill for the purchase of the X-Ray which cost \$2,500 leaves a balance to be paid.

The hospital board finds words inadequate to express their appreciation to all who helped to make this amount possible.

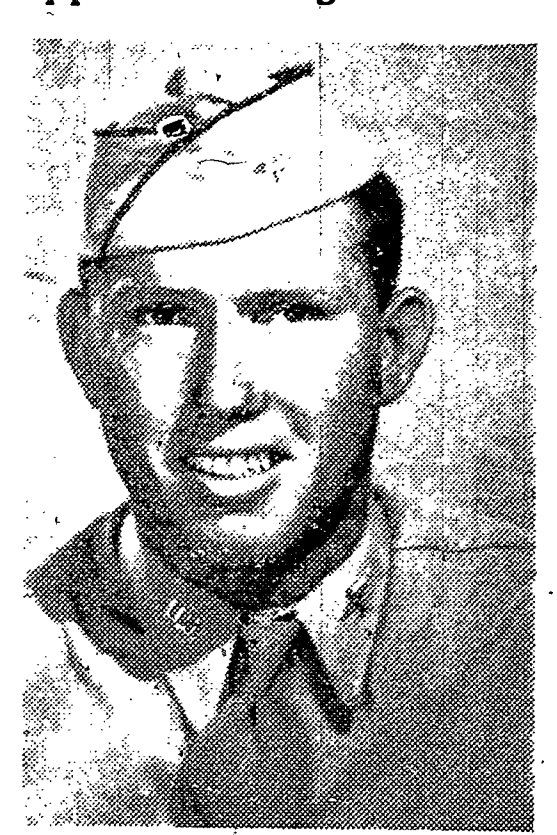

The hospital is growing and seems adequate to meet the needs of the sick but with a microscope state aid could be secured. Will someone provide a microscope in order that the hospital which has weathered the storm of limited funds for so many years may receive state aid?

The Board is quite sure that when these matters are fully understood by the public that it will not be long before all obstacles hindering the further progress will be removed.

Expected Home

SSGT. HARRY A. TUCKER

It is quite interesting to note how much our boys apply themselves to the Army-business and how many from this County have received numerous promotions. The number of boys from this section who are non-commissioned officers seems a bit out of proportion but undoubtedly these boys have what it takes. We have watched with much interest the boys we knew so well and among them we have noted Harry A. Tucker, Jr. Just a youngster out of school, he enlisted in the Army, on February 21st, 1941. He was sent overseas on August 5th, 1942, and followed the first wave of troops in the invasion of Africa, he was later on duty with the Military Police in Italy, and was in on the Invasion of Southern France and is now in Germany. He has attained the rank of a Staff Sergeant and is the recipient of many service ribbons, including the Pearl Harbor Medal, Good Conduct Medal, European Theatre of Operation Medal, the Meritorious Service Medal, and others.

In a recent letter to his parents Harry was able to give them a rather vivid description of his trip, across and of the happenings since that time.

He expects to be home shortly, having enough points for a discharge.

To Discontinue Mailing Paper Overseas Until Permanent Addresses And Requests Are Furnished

Peace has come to our Country, and with Peace naturally comes the return of many of our boys and girls to their homes. Many will be placed in the Armies of Occupation in Germany and Japan and many of the Islands of the Pacific.

We have been mailing weekly, copies of the paper, free of charge, to the boys and girls from Hancock County, who were in the armed forces of their Country. The list began with only a few names and it grew larger and larger each week until it reached approximately 600 copies.

We have received much pleasure in doing this small thing for the boys and girls who were doing so much for us. We deemed it an honor to be able to render some small service to these gallant boys and girls.

With the close of the war in Europe and with the movement of troops taking place daily, many of their addresses have been changed and the paper is not reaching them. Immediately prior to the cessation of hostilities in the Pacific a postal regulation went into effect relative to the mailing of papers to the boys in the Navy, which necessitated our discontinuing this mailing list, until such time as we received a request from the boy or girl themselves. With the shifting of troops now taking place in the Pacific and with this new postal regulation in effect, we concluded that we would discontinue the mailing of the paper to those in foreign service until such time as we could have their new permanent address, and a request.

We want them and their families to know that as soon as we can be given their permanent address that we will resume the mailing of the paper.

We want you to know that we feel that you are doing us a favor in furnishing us with their address. It is a pleasure for us to mail them the paper. The many thank you letters that we have received from these boys and girls make us feel that the little we have done, may have meant so much to them.

We know that you will help us to continue to render to them this small service until such time as they are safely home with you. So send in your boy or girl's new permanent address with a request for the paper.

Birthday Celebration At Jive Hive

All members of the Jive Hive are cordially invited to come and help enjoy the delicious cake that will be cut Friday, August 24th in honor of all members who have a birthday in August.

Our Bay St. Louis members report another pleasant evening at the Youth Center in Pass Christian.

At the last business meeting of the Jive Hive, Mrs. C. C. McDonald in a very interesting talk brought before the entire group how much had been accomplished, but stated that these accomplishments had been achieved by the hard work of a very few. Since this is a Youth Center, each one should feel a certain obligation and pride in helping to make it a success. As the parents now see what this club means to our youth, it is hoped there will be more growth, to take an interest and help by being active in any way necessary.

A report was given in that some of the teen-agers of Bay St. Louis have not become members. As it has been plainly stated in one of the rules none will be admitted without a membership card.

We are hereby notifying everyone that a card may be purchased at the Jive Hive at any time it is open.

BAY ST. LOUIS CANTEN CLOSES

The Bay St. Louis canteen has closed, having operated for the past eight months and serviced an estimated 1000 service men.

The canteen was the outgrowth of the keen understanding of a small group of women who intuitively knew the needs of the boys in camps so many miles from home. Going out in the field these women met with 100 per cent cooperation. Mr. Laurence Dickson let them use his building for the first month and for the remainder of the time Mr. Conrad Sick gave the use of his building. The county gave a generous cash donation and the city gave free gas. The merchants each gave a stipulated monthly amount and several ladies loaned furniture.

Volunteer workers gave their time in assisting in the preparing of food and being on hand to help serve those who came to the canteen. The young girls lent their presence to help make it pleasant for the boys in uniform.

But the service rendered by the canteen was even more far reaching than that. Many of the boys were safe guarded from the temptation of going to bars and gambling houses; rooms were secured for the boys and they were directed to the churches. Reading matter and stationery were provided. Then a telephone fund was started and any boy in uniform coming had the privilege of drawing and if he drew his name he was allowed to put in a long distance call to his home and the canteen fund paid for it.

The ladies have received letters from the boys and from their parents thanking them for what the canteen did for them and what pleasure and relaxation it afforded.

Those who worked in the canteen enjoyed it and were happy in the chance to do their bit for the service men. They take this means of expressing appreciation for the splendid cooperation which made the canteen possible.

Oscar Bragg, Jr., Expected Home Soon

Among the 14,876 passengers aboard the Queen Mary, as she docked at the New York harbor on Tuesday night, August 21, was one of our local boys, Copl. Oscar Bragg, Jr., 105 Engineers Combat Battalion of the famous 30th Old Hickory Division.

These gallant fighting men, heroes of the battle of the Bulge, saw ten months of bitter warfare. They had top role in stopping Marshal Von Rumsted's onslaught in December. The young combat hardened veterans lined the rails and crowded the porches to witness the severing of hands and whistles, while hundreds of harbor craft outlined their giant vessel with search lights, and thousands cheered and waved.

Rockets and flares shot into the sky as the Queen passed Fort Mifflin and huge 'welcome home signs' beamed from nearby military installations. The ship was ablaze with lights.

Most of these men will go home on furloughs from Camp Kilmer and Camp Shanks, where they were sent directly from the ship, it was stated.

It is always good news to know our local boys have come home and Oscar's return is no exception, as usual the towns folks join his happy parents, Mr. and Mrs. Oscar Bragg Sr., in anticipation of his presence among us.

Awarded Meritorious Service Unit Plaque

With the Dixie Division in Mindanao—(Special)—For outstanding devotion to duty in Dutch New Guinea, Mortalai, and Mindanao, T4 Clois R. Dedeaux of Bay St. Louis Miss. and his 155th Infantry Service Company have been awarded the Meritorious Service Unit Plaque.

When first in combat the company had to supply its regiment then manning an 8,000-yard perimeter, despite the total absence of supply roads. In Mindanao retreating Japs destroyed scores of bridges while the 155th advancing more than four miles a day up the Sayre Highway, stretched supply lines almost to the breaking point. Throughout its 18 months overseas the company has maintained a high standard of efficiency and discipline.

Sergeant Dedeaux is the son of Mrs. Amelia Dedeaux Lewis of 248 Citizen Street, Bay St. Louis.

Stray Dogs Menace To Children On School Grounds

Stray dogs running the streets without anything to eat have a tendency to congregate at places where a scrap may be picked up. The school yard is one of their favorite places at recess time while kids are eating their sandwiches and dropping a scrap now and then. At Bay High as many as 12 to 15 dogs have been seen at one time and everyone knows a hungry dog can be a vicious one.

A dog, whose head was pronounced positive for rabies, was killed in the yard of the Primary school on Leonard avenue last fall. It may be well to note that in a neighboring county over 400 people have taken Rabies treatment this year.

AGRICULTURAL DEVELOPMENT IN COUNTY CONTINUES

SOMETIME back we had the pleasure of having Mr. J. Lewis Henderson native son of Oktibbeha County, Mississippi, who is Regional Information Specialist of the Farm Security Administration at Little Rock, Arkansas, visit Hancock County, and for several days he travelled throughout the County, making calls on the dairy farmers.

He made many observations, and discussed with many of the farmers things of interest to the individuals. A graduate of Mississippi State, and having majored in dairying at the University of Wisconsin, highly capable and well informed, he was in a position to give some sound advice to many of our local people. He was able to observe the rapid advances in dairying in this County, made possible through the assistance of the Farm Security Administration.

With the release of the 1945 agricultural census figures on Hancock County, Mr. Henderson compiled a comparative report setting out many significant changes that have taken place between the years 1940 and 1945.

We were astounded when we read this report. We doubt, if anyone in Hancock County has ever visualized the growth of the County in this period of time from an agricultural viewpoint.

The number of farms increased from 509 to 982.
The land in farms increased from 28,534 to 62,079 acres.
The number of cattle and calves increased from 6251 to 14,516 and the number of cows and heifers two years old and over from 3,127 to 10,504 head.

Number of milking cows increased from 1,092 to 2,976; and milk production increased from 333,420 to 1,192,150 gallons.

Number of farms reporting whole milk sales increased from 60 to 137, and whole milk sales increased from 193,344 to 960,863 gallons.

Number of hogs and pigs increased from 3400 to 10,184 head.

Number of chickens increased from 15,860 to 39,942; and egg production increased from 92,845 to 371,413 dozens.

These are interesting figures. It shows what capable leadership can accomplish. Much of the credit for these accomplishments can be given to our farm agents and to the Farm Security Administration which made loans to many farmers in the County, and which loans are being repaid. The records show that the loans made to Hancock County farmers are being met promptly, and for the past year repayments averaged above 100%. It is interesting to note the personnel entering the business of dairy farming. We see among them men who heretofore made their living strictly from the manufacture and sale of moonshine whiskey. Men who have spent a lifetime in this business. Who knew nothing else. What a change for the better. They are still selling their products by the gallon, but instead of moonshine it is milk. It is no longer necessary for these men to shy off and head for a reed break when mention is made of law enforcement officers. They can stand by and take their position in life with every law abiding citizen. What a comfort this is to many. Their ways of living have changed. They have the comforts in their homes of the people of the City. Their health, especially of their children has improved due to better diets, including more milk and vegetables, and in addition to all of this they are making an independent living.

If this transformation can take place in the short space of five years, think of what continued efforts in this direction will bring.

Every effort should be made by the people of Hancock County to lend their support to any move that will assist in the further development of the agricultural interest of the County, and may we continue to have the support and interest of the Farm Security Administration and the other agencies that have helped to make these things possible.

FREE ECONOMY PROVES STRENGTH

ALL through the history of man there has been a struggle between men in government and men not in government. Political power has been transferred back and forth by conquest and revolution. People free themselves by revolution and bloodshed, only to have governments slowly consume their freedom.

Up to the time hostilities ceased in Europe, men in the German government had such control over men not in government, that the destruction of freedom reduced people to the level of vassals. Citizens the world over are stunned by the reports of torture and suffering in this war at the hands of men in government. It has been proven that men in government abuse the privileges of extensive power over their fellow men. The only way to end this struggle between freedom and government, that has made history colorful with the constant spilling of blood, is to remove the opportunity for men to gain personal power in government. The founders of our government struck upon an idea to safeguard the men out of government from the ambitions of men seeking power in government. They limited the men in government to the preservation of the rights and property of the men out of government.

The founding fathers had to consider two types of economy: A dictated economy, and a free economy. The dictated economy would have had the livelihood of a people controlled by the men in government. Under a free economy, individuals would be the creators of their own livelihood, with government restricted to formulating and enforcing laws to preserve men's rights under fair government regulation. A dictated economy is nothing new. It has existed under many different names.

When our people chose a free economy, they broke away from the old dictated economy controlled by men in government. The aim of our new economy was to destroy the age-old dictated economy which enabled men in government to dominate men not in government. The wealth of our nation has remained in the hands of men not in government—the people.

Has our free economy failed? The answer is that the men not in government are still free, and that our nation is the wealthiest and strongest in the world today. But our free economy goes farther. In the more than one hundred and sixty years of its trial, the men not in government have worked with the men in government to such an extent that they have broadened our free economy by helping formulate policies which raised our standards of living to unheard of levels and enabled our country to give hope and material help to peoples of other nations who sought to break the paralyzing hold of men in government. This unity of purpose to preserve and strengthen freedom and justice, is the highest tribute to the superiority of a free economy.—Industrial News-Review August 20, 1945.

The war was won by teamwork, including the fighting services and all those who aided the war effort on the home front. Why can't we continue that cooperation?

We have heard of a few Americans who wanted to keep on fighting the Japanese until the enemy people were annihilated but none of them wore uniforms or service stripes.

GOVERNOR BAILEY TO SPEAK

Governor Bailey is to speak to the people of Lawrence County at Monticello on Friday night of this week. The subject of his address will be, "Our Duty To Returning Veterans." VICTORY LOAN

Notice has been received at the Capitol in Jackson that a Victory Loan Drive will be put on by the U. S. Treasury in the near future. Secretary Vinson called the chairman of the War Finance Division to Washington on August 18 to arrange for the new drive and announce the date, the amount to be asked for, and other details for the drive. Already seven loans have been successfully conducted in connection with the war just ended which cost the United States more than 300 billion dollars.

GOVERNOR BAILEY'S MOTHER

Mrs. Rosa Bailey, aged 83, mother

of Governor Thomas L. Bailey, died at the Mansion in Jackson on Friday morning August 10. In the afternoon of the same day a service was held at the Wright and Ferguson funeral chapel, with Bishop J. Lloyd Decell and Dr. J. R. Countiss officiating. The body was then taken to Maben, the family home, where interment took place on Saturday in the cemetery of the Cumberland Presbyterian church. TRAFFIC DEATHS

The current report by the Safety Council of Chicago shows that in the first six months of 1945 there were 11,160 people killed in traffic accidents in the United States. This is 1% lower than the 1944 record for the same period, but 10% higher than the same period of 1943. In Mississippi the record shows a reduction of 16% as compared to the 1944 record for the first six months of the year. The number killed in Mississippi in the first six months of 1945 is 122 as compared with 145 in the same period of 1944 and 130 in 1943.

"THE WAR IS OVER"

Never has there been another announcement which thrilled the world

A United Industry

The self-regulation program of the brewing industry has brought brewers, distributors and retailers together in the interest of you—the public. All three branches of the industry insist that beer be sold only by responsible businessmen in respectable places.

An example of this unity of purpose was two delegations of retailers from different Mississippi towns that recently called on this committee to report conditions that needed correction in their communities.

This evidence that those who sell beer are aware of their responsibility and recognize their obligation to see that all those enjoying the benefits of a beer license observe the spirit and the letter of the law is proof of the soundness of this industry's self-regulation program.

A. & G. THEATRE SUNDAY AND MONDAY "SALTY O'ROURKE"

Alan Ladd in Title Role

One of the hottest coming attractions scheduled Sunday and Monday at the A. & G. Theatre is Paramount's "Salty O'Rourke," an Alan Ladd screen sacker which already has drawn high praise from high places in Hollywood. Alan co-stars with Gail Russell in the pounding story of a race track classic slated to raise audience blood pressure coming into the home stretch.

With Alan Ladd in the title role, it's a case of the Ladd gunning again for the chance to go straight after finding he's been put on the spot by a gambling ring of ruthless killers. Alan gets help from a winsome, youthful school teacher, played by Gail, whose honest love keeps Ladd from straying off the beaten path. Those who've seen the picture declare Milton Holmes' story and screen play hits a peak in writing with Raoul Walsh's direction in for some bouquets, too.

Bruce Cabot plays the ominous role of a big-time racketeer who's waiting for a \$20,000 pay-off from Ladd. In order to square the debt, Ladd buys a horse, hires Stanley Clements as his jockey with William Demarest as trainer. It's a case of beating the deadline date for the pay-off thereafter and the action roars at a mad pace right up to the climax, it's said.

All the rich background of horse racing, the sport of kings, has been captured by Hollywood cameras, according to reports. Intertwined with this is a warm romance of a gentle school teacher and a silent implacable horse better. With Ladd in a film, there's always bound to be a little gun-play and Alan proves his fingers are as nimble as ever in a

so much as that one at six p. m. Tuesday, August 14—"The War Is Over." It was the signal for great rejoicing throughout the world. World War No. 2 was the greater war in all the centuries of time. For years and years the Germans and Japanese had been preparing for this great struggle in which they hoped to conquer the world and reduce many major nations to "slave states." The colossal proportions and far-reaching results of the war can not be estimated in a few brief words, but it has been announced that casualties total about 55,000,000 for all nations involved. Total casualties for World War 1 were given as 22,104,209. In the war just ended the casualty list, dead, wounded, and captured, for the United States is placed at 1,070,000. Less than one-fourth of these were killed. The world turns now to the big problem of peace, which, it may be said, hath her victories no less renowned than war.

RAKING AROUND—

General Douglas MacArthur has been named as the big boss of Japan. —"Filler-Up," is the new greeting by the car owner to the filling-station man—something not heard in this country for about three years.—Today, for the first time in years, there is not a war going on anywhere in the world.—Reports from over the state say that crop conditions, in spite of the late start in the spring, are good and that more than an average yield is indicated at this time.—The Board of Supervisors of Hinds County has issued a ringing appeal in behalf of the proposed four-year medical school. Former Governor Hugh White delivered another address in Jackson last week in support of the proposed school and urged that the Legislature be convened in extraordinary session to pass on the proposition.—In World War No. 1 the United States sustained 364,800 casualties, 126,000 of whom were killed or died while in the war.—The next session of the Legislature will convene in Jackson on January 8, 1946.—Congress will go back to work on September 4 instead of prolonging the vacation to October.

HOW IS MY WIFE MAKING OUT;

We owe a debt to this man. Adding a worry is not the way to show our gratitude. The security of his wife and family depends upon us. Our job on the home front is to heed ceiling prices. Then we won't over buy and cause an increase in prices. We'll check the black market and make it easier for servicemen's wives and others with low, fixed incomes.

ORTTE THEATRE SUNDAY AND MONDAY "THE NAUGHTY NINETIES"

**Bud Abbott, Lou Costello
With Alan Curtis and Rita
Johnson**

That famous "hoss" team, Bud Abbott and Lou Costello, starred in Universal's extravagant new comedy production, "The Naughty Nineties," comes to the Ortte Theatre Sunday and Monday.

New gags, new situations and surprises have been devised by the producers John Grant and Edmund L. Hartmann and the result is said to be a triumph for Universal's great combination of fun making talent and ingenious stagecraft.

The interest compelling plot of the picture opens about an old-time Mississippi river showboat with Abbott as ham actor and Costello as chief roustabout.

The showboat captain and his daughter played by Henry Travers and Lois Collier, lose control of their boat to a pair of crooked gamblers, enacted by Rita Johnson and Joe Sawyer.

Later Abbott and Costello in a series of hilarious episodes, succeed in running the two gamblers and their gang off the showboat and restoring it to respectability. The reformation of one of the gang, played by Alan Curtis, and his subsequent betrothal of the captain's daughter, provide a romantic interest.

Jean Yarbrough, who has directed many of Abbott and Costello's comedies for Universal is credited with another outstanding job in "The Naughty Nineties," and the studio's special effects department brings a number of near miracles to pass—things that never before have happened in pictures, advance notices declare.

5 Good Country Tricks for Saving More Used Fats

Right now, the country is facing the worst fat shortage since the war began. To help make up the deficit, the government is depending on the women of America—and particularly our women on farms and in smaller cities.

Every drop of fat is needed to help make battlefield and homefront essentials. So roll up your sleeves and do an all-out job, won't you? Clip this checklist as a reminder.

- 1. FRIED SALT PORK**—with milk gravy. Salt pork yields so much grease, you won't need it all for gravy. Pour the rest into the salvage can.
- 2. DEEP FAT FRYING**—use the fat over and over, but when it's too dark and smelly to use any more, don't forget Uncle Sam wants it!
- 3. ROASTS AND CHOPS**—save all trimmings (scraps from the plates, too.) Keep them in a small bowl; once a week melt them down.
- 4. SAUSAGES**—they're better if you parboil them first. Skim the fat off the cooking water—scrape the fat from the frying pan.
- 5. CHICKEN SOUP**—chill it before you use it. Scoop off the hardened grease (soup tastes better, too!)

When the salvage can is full, take it to your butcher promptly. He will give you 2 red points and up to 4c for every pound of used fat you turn in.

100,000,000 More Pounds of Used Fats Are Needed This Year
Approved by WFA and OPA. Paid for by Industry.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started early and before "your time," it should help relieve pain due to purely functional periodic causes. 27¢ per box.

Civil Service Commission To Aid Returning Veterans Secure Employment

Until further notice the United States Civil Service Commission will not receive any applications for employment in the Federal Service except from those veterans who have the right to have examinations reopened to them.

The Commission has taken this step according to a statement issued today, in order to make sure that any vacancies which develop in the Federal Service will be filled either by returning veterans or by persons who are about to be or have been separated from other positions in the Federal Service.

"The Federal Government as an employer," state the commission, "must set the example in providing the members of the armed forces who are coming through our separation centers today with the maximum possible opportunities for employment."

"Also, the Federal Government is determined not to put itself in a position where it is discharging persons in one part of the Federal Service and, at the same time, hiring persons from the outside to fill similar positions in another part of the Federal Service."

Where the supply of returning veterans and the supply of persons involved in reductions in force in the Federal Service are not sufficient to fill vacancies, the Commission's Regional Directors have been authorized to lift the ban on receipt of applications. In certain occupational areas such action will be taken very promptly after the Commission's field officials have had the opportunity of appraising the situation which confronts them as a result of the cessation of hostilities.

"It would be a complete waste of time, energy and money for the Commission to continue to receive applications for limited appointments from persons who are outside of the Federal Service and who are non-veterans, if the needs of the service can be met by returning veterans and those who are now on the Federal payroll," the Commission pointed out.

"All of our resources must be available for the orderly handling of reductions in force, the prompt transfer of persons who are laid off to other agencies which may be looking for persons with their qualifications, and the administration of the Veterans Preference Act of 1944."

How the L & N aids SOUTHERN PROGRESS

Since 1850, the L & N has recognized and worked for development of the South's resources.

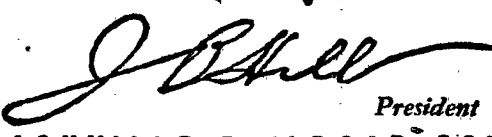

An investment of half a billion dollars during 95 years, and a tremendous service organization partially reflect the "Old Reliable's" faith and accomplishment.

In 1944, 34,200 employees were paid \$85,000,000 in wages and salaries, and this golden stream energized commerce, agriculture, and social progress.

\$63,600,000 was its contribution to National, State, and Local Government—to schools and other forms of public activities.

More than \$33,000,000 went for its own purchases, thus stimulating industry, manufacturing, and trade of every nature.

And—"Believe it or Not"—it hauls a ton of average freight—sand to silk—for less than One Cent per mile, and passengers at an average rate of 1.84 Cents per mile. It desires to serve satisfactorily and to deserve public patronage and confidence.
